Driving License - Category B

EDUCATION

Faculty of Engineering of the University of Porto (2021 – Present)

Bachelor in Informatics and Computing Engineering

WHO AM I?

I'm a 22-year-old student driven by curiosity, ambition, and a strong desire to keep learning. I have a strong passion for technology, especially in areas such as Artificial Intelligence, Web Development, and Mobile Development. I enjoy collaborative environments where I can communicate clearly, keep improving, and help turn ideas into practical solutions. I'm still at the beginning of my journey, but I'm motivated to grow, take on meaningful challenges, and bring positive energy to the people and projects around me. At the end of the day, good energy and the right mindset can take us a long way.

NOTABLE PROJECTS

Supervised Learning for Classification (2025)

University project focused on developing and evaluating supervised learning models for classification tasks, supported by exploratory data analysis, preprocessing techniques, and comparison of different machine learning algorithms.

Lanicopier Website Development – igdotcom Internship (2025)

Internship project focused on the development and implementation of website solutions for Lanicopier, including frontend work, data integration, page construction with Elementor, and improvement of the site's structure and user experience.

EXTRACURRICULAR ACTIVITIES

Mentor – Informatics.OnBoard U.Porto (2024)

Mentored first-year Informatics students weekly, supporting their academic and social integration.

Participant – ENEI 2025

National event for Informatics students - networking, talks and tech showcases.

Youth Group Member

Active in community volunteering and event coordination.

EVENTS & RECOGNITION

Guinness Record – World's Largest Programming Class (2024)

Certified Participant
